

Resistance 2.0 Resources

**How to fight back against Trump, Musk, and MAGA, and WIN,
(and how many thousands are already doing it):**

**Version 3.1.8 – July 17, 2025
By Sven Greenbo**

I. Introduction:

This is a compendium of resources to help craft an effective resistance to MAGA, far right fascism, and the coming attacks on our rights, liberties, and persons. This is offered as a toolbox. It will be periodically updated.

New in this version:

Items Added Since the Previous Version – to help you see what's new, I have highlighted the newly introduced items with yellow highlighter. This new edition incorporates a lot of older material that was previously skipped over, as well as much of the newer material including and after “No Kings Day”, June 14, 2025.

Quick Disclaimer: This guide includes strategies and suggestions that include working within the Democratic Party, working outside the Democratic Party, using electoral strategies, and using non-electoral strategies. The strategies proposed here are strategically non-violent, but nobody should assume those strategies are intended to demobilize any organized resistance to Trump, Musk, fascism, authoritarianism, or anything related to the above. I don't claim to have all of the answers or even necessarily correct answers (though I am confident that these are useful). This is an all-inclusive guide, not a political party or ideologically dogmatic manifesto, so please do not use this as ammunition in sectarian squabbles. We do not have the luxury of such hair splitting in the present moment.

II. **Scope of the Resistance (alphabetical)** – “Why doesn't somebody *do* something?!?” As a matter of fact, people are. Many people. Many thousands of people, and the numbers continue to grow, but many of us aren't aware of just how many are getting fired up and involved (in no small part, because the compliant legacy media is “obeying in advance” and capitulating to Trump and MAGA. The latter *want* you to give up in despair, and one of the most commonly used ways of achieving this is making everyone believe that “resistance is futile.” It most definitely *is not*. If it were, they wouldn't try to downplay it. Here is a sample of these actions that are not being given the coverage they deserve:

III. Strategy (alphabetical) – how does one get involved in the resistance and where? Which is the *best* strategy? In fact, there are multiple answers to these questions. Which path you choose is up to you and depends on your strengths and preferences. The following list isn't exhaustive, and you may even find that it's most effective to devise your *own* strategy that works in concert with the following. In any case, this list is meant to help you find your "lane" and inspire you to act:

Felonious Trump won by a mudslide, not a landslide

In 2024, Donald Trump won the popular vote by **1.5 points**. By any historical measure, it was a squeaker.

In 2020, Biden won by **4.5 points**
In 2016, Clinton won by **2.1 points**
In 2012, Obama won by **3.9 points**
In 2008, Obama won by **7.2 points**
In 2004, Bush won by **2.4 points**

**You have to go back to the 2000 election
to find a margin smaller than Trump's.**

Yet most of the corporate media have accepted
Trump's triumphal victory claim as fact not fiction.

FELONIOUS TRUMP HAS NO MANDATE!

<https://tinyurl.com/trump-barely-won>

Solidarity**INFO**Service.org

VI. **There is no MAGA Mandate (alphabetical)** – Don't believe the hype! There is no MAGA mandate. Trump did win the popular vote, but it wasn't a landslide. In fact, the 1.5% margin was the smallest margin of victory in over a century. Moreover, he won a plurality (approximately 49% of the overall total), but not a majority. Furthermore, if one includes everyone who *didn't* vote, approximately 80% of the people *did not vote for* Trump. Now, consider those who *did* vote for Trump. The majority of *them* do not endorse MAGA, Project 2025, or the far right. They voted for him, because they are concerned about high prices, which Trump has no intention (or ability) to effect. Finally, *nobody* voted for Elon Musk, and practically *nobody* supports him and his DOGE brownshirts ransacking the administrative state or having access to everyone's private information.

HOW TO STOP TRUMP'S ADMINISTRATIVE COUP

- Be angry out loud**
Sound the alarm on social media. What's happening is not normal or business as usual.
- Tell Congress to fight back**
By freezing federal aid, Trump is stealing power from Congress. Call your senators and representative in the House and tell them to defend their authority.
- Join the legal fight**
Support the ACLU and Democracy Forward's lawsuits challenging the federal aid freeze.
- Alert the media**
What's happening right now is an emergency that will devastate the economy and millions of American families. Don't let mainstream media bury the lede. Tag outlets on social and write letters to the editor urging them to cover this crisis accurately.
- Be in community**
Tell your friends to get the word out and connect with mutual aid groups. They want us to be isolated, but together, we can fight back.

I think there has been a war of the imagination over the last several years. I was thinking a lot about what there might be to be optimistic about and I came to the conclusion that this feeling of hopelessness that everybody has is a manufactured product, and that's what Neo-Liberalism is really about. Neo-Liberalism isn't just an economic program, it's a political program designed to produce hopelessness and kill any future alternatives."
